

Posting Polls

Edmodo Polls is a simple system that allows you to post polls to your Edmodo groups to get quick, anonymous feedback from your students.

1. Select the “**Poll**” icon from the post options.
2. **Type your question**, and at least 2 answers. If you need more answers, just click the “**add answers**” button.
3. List the group(s) that you wish to send the poll to, and click “**Send**”.

4. Group members will see the poll on their group page and have the option to **vote** for the different choices. Each student can only vote once and they cannot retract their vote.

5. You will see the **poll results** directly on the posting. You cannot see which members voted for which answer- you will only see total voting results. Click “**Refresh**” to update.
