

# VIRTUAL LEARNING

Welcome Letter:

 [Virtual Classroom Welcome.pdf](#)

This is a test video about the Pythagorean theorem:

<https://www.educreations.com/lesson/view/pythagorean-theorem/52173458/?s=2jGel4&ref=app>

This is the packet for Unit 11. You will be using this as a guide for your notes. You do not need to print this entire thing, feel free to print the notes pages only or just copy the notes onto a separate sheet of paper or graph paper.

 [2020 packet.pdf](#)

This is the answer key to the packet. Please check your answers with mine and message me with any questions or clarification needed. Please do not check until you have attempted and completed everything you can ON YOUR OWN first!
