Directions for Catalhoyuk Journal

You are going to assemble a journal in which you can record your observations while visiting the Neolithic community of Catalhoyuk. The journal can be personalized to your own taste. Since you will be looking for specific evidence of the key characteristics of a Neolithic society you should organize your journal by creating one section for each of the following categories:

- Environmental Setting
- Dwelling
- Use of Animals
- Use of Tools
- Communication
- Social Organization
- Art

You will also need a section labeled Reflections where you will respond in 4 separate paragraphs to four questions
